## Future Proof Healing Environment

Martini Hospital Groningen The Netherlands

### Facade Extensions

Facade extensions and interchangeable facade panels prepare building for future changes

### Transparent Junctions

transparent junctions let in abundant natural daylight and give views to the outside making orientation easy

### Random Colours

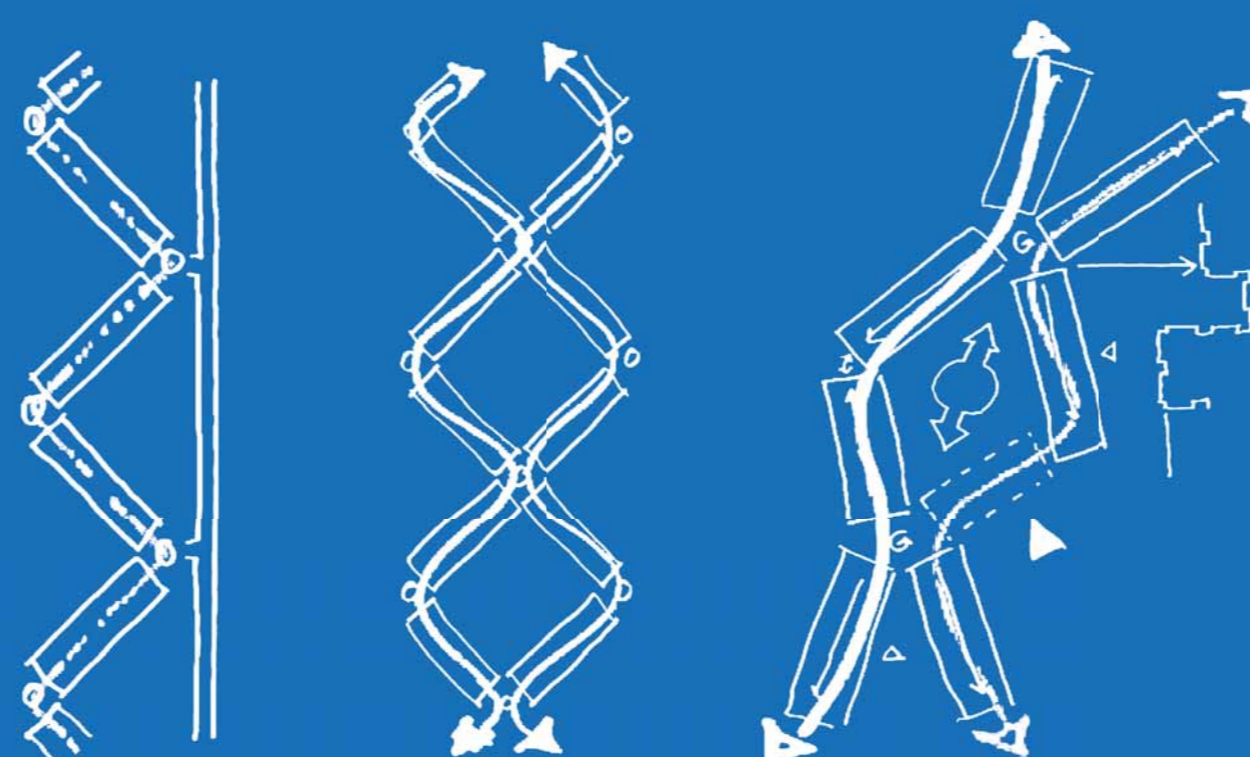

Random application of vivid colours provide a stimulating internal environment

### Modular Interiors

modular furniture and demountable internal walling cost less energy when changing for the future

### Concept Sketch

uniform narrow building blocks connected like a chain allowing for maximum functional connections

### key figures:

Beds: 580

60 000m<sup>2</sup> new building

23 000m<sup>2</sup> renovation

Completed: 2007

Investment: €155 mil
